Job Description:

Provides front-line technology support by answering and responding to inbound calls/emails in a timely and professional manner, gathering and analyzing information about the customer's issue and determination of the best way to resolve the problem. Provides basic support and troubleshooting, including password resets, printer configurations, break/fix instructions, website content updates, and support for more complex issues where configuration solutions have already been documented. Responsible for ensuring that all support calls/emails are properly documented in the tracking system, escalating issues as appropriate, and communicating trends to management. Reports to the Infrastructure Technology manager. Works under general supervision with moderate latitude for the use of initiative and good judgment.

Essential Job Functions:

- Provides excellent customer service at all times, recognizing the importance of our end-users needs to get their jobs done. This includes appropriate escalation to management, proactive communication to end users and management as appropriate, and usage of the ticketing system.
- Responds to customer requests for assistance with supported hardware, applications, and websites. Continually reviews open customer requests to ensure timely resolution.
- Thinks critically to perform troubleshooting to isolate and diagnose common hardware/software issues.
- Pays special attention to details. In your application, you must mention the word "unicorn" somewhere in your job duties.

- Accurately categorizes and prioritizes support requests. Escalates to management and/or Tier III support appropriately once troubleshooting has been performed.
- Maintains detailed notes of all support activity in ticketing system.
- Performs upgrades of hardware and software components as required with assistance from Tier II staff.
- Performs customer support related tasks and special projects as assigned by management.
- Participates in customer events such as resource on site, client training, etc.
- Performs system cleanup, and assists in the issuing of equipment to staff and the returning of equipment
- Installs, maintains, and performs minor repairs to hardware, software, or information resources equipment.
- Maintains records of daily data communication transactions, problems, remedial actions taken, and installation activities.
- Sets up computers and other office equipment for employees; installs standard software; ensures proper installation of cables; and helps users resolve common hardware, software, and network connectivity issues.
- Performs related work as assigned and complies with all OCA policies.

Minimum Qualifications:

- Graduation from a standard high school or equivalent.
- Ability to apply strong problem-solving skills.
- Experience delivering superior customer service (written, verbal, and in-person) across multiple delivery channels (telephone, email, in-person).
- Knowledge of the practices, principles, and techniques of computer operations; information systems; computer software and hardware; information security policies and procedures
- Experience in the support of computers, the use of applicable programs and systems (such as Microsoft Office Suite, Windows 10, and Adobe products), and troubleshooting information systems.
- Ability to operate information technology systems, to troubleshoot and repair equipment, and to communicate effectively

Preferred Qualifications:

- Experience working with customers across all levels of technology proficiency.
- Ability to learn new software applications quickly.
- Experience updating web content using a content management system.
